## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Department of Elementary and Secondary Education** state this proposal will have no fiscal impact on their agency or on school districts.

Officials from the **Parkway School District** state this proposal will have no fiscal impact on their district.

Officials from the **Special School District of St Louis County** assume their district could save about \$30,000 in bus transportation costs for each day that the district reduces the calendar. Teacher staff expense would probably not decline as the staff would work longer days. A reduction of four days would increase the school day by .3 hours and reduce bus transportation expenses by about \$120,000.

**Oversight** assumes that even if a small number of districts opted for a reduction of school days (with more hours per day), transportation savings could exceed \$100,000 annually. Oversight is unable to determine the allocation of savings attributed to state, federal, and local sources.

**This proposed legislation was sent to the following school districts, none of which responded to a request for fiscal impact: Blue Springs, Branson, Columbia, Fair Grove, Francis Howell, Independence, Jefferson City, Kirksville, Lee's Summit, Mexico, Nixa, Raytown, Sedalia, Sikeston, Silex, Spickard, Springfield, St Charles, St Joseph, St Louis City, Sullivan.**

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Currently, a public school must prepare a school calendar that requires a minimum number of both days and hours of attendance. This proposal retains the current requirement of 1,044 hours for a school that bases its calendar on days and hours but allows a calendar to be based solely on hours if the minimum number of hours is at least 1,073.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
